VFW Post 3285 was chartered in 1935 and named for Frederick native John R. Webb who made the supreme sacrifice for his country in October 1918 during World War I. Membership in the organization comes from U.S. Armed Forces personnel who have participated in Foreign Service campaigns. Our post membership now exceeds 1100 members on the Veteran side and many more in our Auxiliary which consists of direct family members of past and present VFW members. We continue to increase our membership year over year and have established ourselves as an "All American" post for multiple years. All American status is meant to recognize outstanding VFW posts and is based on participation in VFW Programs as well as membership gains by posts.

Over the past 12 years, the VFW has been raising funds to build a new building scheduled to be finished in summer 2024. The current plans consist of a 6000 square foot first floor clubhouse with a 3000 square foot storage basement designed to continue to provide a place for all members to meet while continuing to serve veterans and their families.

Please provide pricing if possible by October 15, 2022
